EDUCATION

Boston University Boston, MA

Bachelor of Arts in Computer Science, Minor in Film & TV, GPA: 3.79

Expected May 2027

Relevant Coursework: Data Structures, Algorithms, Computer Systems, OOP, Linear Algebra, Distributed Systems,

Foundations of Data Science

Activities: AI Society, CS Club, Tau Kappa Epsilon, BU Jiu Jitsu

PROJECTS

Movie Search Web App | React, JavaScript, TMDb API, TypeScript, Tailwind CSS, Next.js, Vercel, NoSQL, Docker, HTML https://project-website-final.vercel.app/ August 2025

- Created a **React** web app for searching movies (with search debouncing) and viewing trending searches.
- Integrated an Appwrite database to store user searches and The Movie Database API to fetch movie data.
- Containerized the app using **Docker** to maintain a consistent production environment.
- Deployed on Vercel, delivering a responsive, fully functional, user-friendly web experience.

Storelt | React, JavaScript, TypeScript, HTML, Tailwind CSS, Next.js, Chart.js, ShadCN, Vercel, NoSQL August 2025-Present https://github.com/Kiefer-Ebanks/StoreIt

- Building a full-stack web application for storing, organizing, and sharing files online.
- Integrating a React frontend with an Appwrite backend for file management and storage.
- Implemented authentication with one-time passwords (OTPs) and enabled real-time file sharing.

EXPERIENCE

Boston University Boston, MA

Course Assistant

Sep 2025-Present

- Lead 370+ students to master python and programming fundamentals for CS111 through labs and office hours.
- Adapted teaching styles to maximize student engagement and encourage problem solving and collaboration.

Liberty Caribbean ICT

Cayman Islands

Returning IT ServiceDesk Intern

May 2025-Aug 2025

- Awarded \$3000 scholarship for outstanding performance and exceptional customer feedback.
- Migrated company information to a new credential management system, reducing costs by \$200/mo.
- Implemented AI workflow automation with a Linux Virtual Machine and n8n, utilizing scripts and APIs to streamline ticket handling and save 30s per ticket.
- Managed antivirus scans and cloud data backups to maintain system security and client data integrity.

IT ServiceDesk Intern

Jun 2024-Aug 2024

- Resolved networking, software, Azure, M365 and printer issues to keep IT operations running smoothly.
- Strengthened client relationships by consistently providing prompt solutions, resulting in positive client feedback.

Simply Computers

Cayman Islands Jun 2019-Aug 2019

Computer Repair Technician

- Assembled computers; diagnosed and fixed hardware and software issues with devices from laptops to servers.
- Guided customers in selecting technology solutions tailored to their needs, enhancing client satisfaction.

SKILLS

Languages: Python, C, Go, Java, JavaScript, HTML, TypeScript, CSS

Technologies/Frameworks: React, Docker, Git, GitHub, Linux, REST APIs, Vercel, Tailwind CSS, ShadCN, Chart.js, NoSQL

Non-technical skills: Spanish, 3D modeling with Blender and Maya
